

# Live Life In Style

## Mosaic Life Care Wardrobe Standards

The Uniform Committee has created Mosaic Life Care's wardrobe standard (HR 2170); please use these information highlights as a guide to the new wardrobe standard.

### Clinical Caregivers

Based on caregiver feedback, we have chosen a variety of scrub brands to allow for an assortment of sizes and styles. Additionally, to ensure the best caregiver experience, these brands allow for a range of fabric options. All Mosaic Life Care clinical caregivers may wear all solid one-color styles of the following brands of scrubs in the listed colors: **Cherokee, Dickies, and Landau**. For a complete reference of style numbers, please visit the vendor's online catalogs at:

<http://www.cherokeeuniforms.com/>  
<http://www.dickies.com/>  
<http://www.landau.com/>

When placing a request through the Mosaic Auxiliary Gift Shop Order Form, please be sure to reference the color and style prefix code.

Clinical caregivers may wear any colored scrub top with black bottoms. However, if the scrub bottoms are any other color than black, the scrub top must be the same color.

Clinical caregivers may wear a black, grey (pewter), or white t-shirt or long-sleeve t-shirt underneath their scrubs.

Advanced Practice Nurses may wear a short (at or below 33" in length) white lab coat, with the option for an embroidered Mosaic Life Care logo and credentials.

Physicians may wear a long (at or exceeding 33" in length) white lab coat, with the option for an embroidered Mosaic Life Care logo and credentials.

## **Non-Clinical Caregivers**

All Mosaic Life Care non-clinical caregivers are required to wear business casual, unless a specific uniform is required; for example, Nutrition and Dining Services, Housekeeping, Grounds, etc. Uniform selection is based on Team Leader and departmental standards.

The way in which Mosaic Life Care caregivers present themselves contributes to the overall patient and customer experience. Caregivers represent the organization, and their personal appearance is important in shaping the impressions developed by our many and diverse customers. We appreciate all of your support with this process!
